

WE CLAIM:

1. A package for housing consumable products comprising:  
a housing;  
5 a sheet disposed inside the housing; and  
a plurality of consumable products releaseably attached to the sheet, the products configured within the housing so that a consumer can grasp and remove at least one of the consumable products from the sheet and the housing.
- 10 2. The package of Claim 1, wherein the housing includes a plurality of walls that define an opening and a lid hingedly connected to one of the walls, the lid adapted to cover the opening.
3. The package of Claim 1, wherein the housing includes a plurality of walls that  
15 define an opening and one of the walls defines a cutout that assists the consumer in grasping and removing the at least one product.
4. The package of Claim 1, wherein the sheet is attached to an inner wall of the housing.  
20
5. The package of Claim 1, wherein the sheet includes a plurality of adhesive areas and the consumable products releaseably adhere to the adhesive areas of the sheet.
6. The package of Claim 5, wherein the adhesive areas are heat activated to adhere  
25 the consumable products to the sheet.
7. The package of Claim 1, wherein the sheet includes a plurality of wax areas and the consumable products releaseably adhere to the wax areas of the sheet.
- 30 8. The package of Claim 1, wherein the consumable products are releaseably attached to either side of the sheet.

9. The package of Claim 1, wherein the sheet loops around the products and one side of the products releaseably attaches to an inner surface of the looped sheet.
- 5 10. The package of Claim 1, wherein the sheet loops around the products and multiple sides of the products releaseably attach to inner surfaces of the looped sheet.
11. The package of Claim 1, wherein the products directly contact the sheet.
- 10 12. The package of Claim 1, wherein the products are individually contained in wrappers, the wrappers are releaseably attached to the sheet.
13. The package of Claim 1, which includes a plurality of sheets disposed inside the housing.
- 15 14. The package of Claim 13, wherein the consumable products are releaseably attached to either side of each of the plurality of sheets.
15. A package for housing consumable products comprising:  
20 a plurality of wrappers individually enclosing a plurality of consumable products, the wrappers releasably adhered to a sheet;  
a housing containing the sheet, the wrappers and the products; and  
an outer wrapping sealed about the housing.
- 25 16. The package of Claim 15, wherein the products are confectionery products.
17. The package of Claim 15, wherein the products are gum.
18. A package for a consumable product comprising:  
30 a housing having a pair of opposing walls; and

an adhesive area disposed on an inner surface of at least one of the opposing walls,  
the consumable product releasably adhered to the adhesive area of the housing.

19. The package of Claim 18, wherein the adhesive area is heat activated to adhere the  
5 consumable product to the adhesive area of the housing.

20. The package of Claim 18, wherein the adhesive area is a wax area disposed to the  
inner surface of the at least one wall, the wax area heat activated to adhere the consumable  
product to one of the walls.

10 21. A method for packaging consumable products comprising:  
removably coupling the consumable products to a sheet; and  
placing the sheet and coupled products into a housing, positioning the sheet and  
products and configuring the housing so that a consumer can grasp, uncouple and remove  
15 one of the products.

22. The method of Claim 21, which includes placing the sheet and coupled products  
snugly into a housing so that the sheet and products cannot fall out of the housing.

20 23. The method of Claim 21, which includes attaching the sheet to the housing so that  
the sheet and products cannot fall out of the housing.

24. The method of Claim 21, wherein removably coupling the consumable products  
to a sheet includes placing a product on the sheet and heating the sheet where the product  
25 is placed to activate an adhesive.
